

Lollipops

A classical concert series for children presented by the Greenville Symphony Orchestra

“Lollipops” concerts introduce children to classical music and the instruments of the orchestra through interactive concerts presented by members of the Greenville Symphony Orchestra. During each concert, chamber ensembles perform while a storybook is read and performed. And of course, audience members receive a lollipop at the end of each performance!

Lollipop concerts are appropriate for children in K3-5th grade, although all children and adults are welcome. Programs last approximately 35 minutes. Reservations are not required and admission is free!

10:00 a.m. at the Hendricks Library in Simpsonville
11:30 a.m. at the Jean M. Smith Library in Greer

Saturday, September 19, 2009
